

25% TO 40% OF THE TOTAL COMMERCIAL BUILDING ENERGY CONSUMPTION IN THE U.S. GOES TO LIGHTING

By replacing or retrofitting old or inefficient lighting systems, you could cut your lighting costs by 30% to 60%.

Lighting technologies developed in the past ten years offer greater efficiency, better light quality and longer life span.

Consider that twenty-five years ago, a typical fixture with four 4-foot T12 lamps using standard magnetic ballasts consumed 176 watts. Today, a similar fixture with T8 lamps using electronic ballasts will use just 100 to 116 watts.

Your electric cooperative can help you save money and energy with cash incentives for qualifying lighting upgrades.

ELIGIBILITY

Energy efficient lighting incentives are available to commercial and agricultural retail customers of participating electric cooperatives.

These incentives are for replacement lighting systems only.

Refer to the attached table for eligible lighting replacements/retrofits and corresponding rebate amounts.

HOW TO APPLY

Full terms and conditions may be found on the rebate application form.

To request a rebate, submit an application along with the required documentation to your participating electric cooperative.

Rebate applications may be obtained from your cooperative.

AG & COMMERCIAL LIGHTING REBATES

Replace >= 400 watt HID with 4 lamp, 54W T5HO Fluorescent High Bay	\$30 per fixture
Replace >= 400 watt HID with 6 lamp, 54W T5HO Fluorescent High Bay	\$30 per fixture
Replace >= 400 watt HID with 6 lamp, 32W T8 Fluorescent High Bay	\$30 per fixture
Replace >= 400 watt HID with 4 lamp, 32W T8 Fluorescent High Bay	\$30 per fixture
Replace 300-399 watt HID with 4 lamp, 54W T5HO Fluorescent High Bay	\$30 per fixture
Replace 300-399 watt HID with 6 lamp, 32W T8 Fluorescent High Bay	\$30 per fixture
Replace 300-399 watt HID with 4 lamp, 54W T8 Fluorescent High Bay	\$30 per fixture
Replace <300 watt HID with 3 lamp, 32W T8 Fluorescent High Bay	\$20 per fixture
Replace <300 watt Metal Halide with 6 lamp, 32W T8 Fluorescent High Bay	\$20 per fixture
Replace/Retrofit Incandescent Exit Signs w/ LED	\$4 per fixture
Replace/Retrofit T12, 4 lamp - 4' Fluorescent with T8 and Electronic Ballast	\$8 per fixture
Replace/Retrofit T12, 3 lamp fixtures - 4' Fluorescent with T8 and Electronic Ballast	\$6 per fixture
Replace/Retrofit T12, 2 lamp fixtures - 4' Fluorescent with T8 and Electronic Ballast	\$4 per fixture
Replace/Retrofit T12, 1 lamp fixtures - 4' Fluorescent with T8 and Electronic Ballast	\$2 per fixture
Replace/Retrofit any 8' T12 with any 8' T8 or tandem 4' T8 with Electronic Ballast	\$6 per fixture
Replace 150W incandescent with CFL - 150 watt equivalent	\$2
Replace 200W incandescent with CFL - 200 watt equivalent	\$2
Replace 250W incandescent with CFL - 250 watt equivalent	\$2
Replace 300W incandescent with CFL - 300 watt equivalent	\$3
Replace 350W incandescent with CFL - 350 watt equivalent	\$3
Replace 500W incandescent with CFL - 500 watt equivalent	\$4
Replace 600W incandescent with CFL - 600 watt equivalent	\$4
